Rules concerning Husbandry.

When you would plant or graft, consider where the wind bloweth; if it be in the South, it is very good for that purpose, but if it be in the North or East, it is not good.

It is good to plant or graft generally the Moon increasing in these signs, Taurus or Aquarius in the beginning of the Month, or latter end of Winter.

Plant trees for continuance, when the Moon is in Taurus, Leo, or Aquarius.

Cut timber to have it sound, in December, or January, in the wane of the Moon in Aquarius or Pisces.

Prune trees and pull off the moss in the month of January.

Plant hedges and lay trees for fuel, that the heads may the sooner grow again, when the Moon is in Aries or Libra, and in her increase.

Set young quick-sets, from September to March.

Remove young trees in the last quarter of the Moon, when she is in Aries, Libra, Scorpio: and in these months, September, November, February.

Set vines in February, March, or September, specially the Moon in Aries, Libra, Scorpio, in her increase.

Set Rose-trees in the midst of February, when the Moon increaseth.

Cut or prune trees in March or April, the Moon in Taurus, Virgo, or Capricorn.

Gather fruit, as Apples, Pears, and the like, at the full of the Moon, in the afternoon, the weather being fair and dry.

Cut down Hay presently after the full of the Moon.

Dung ground to prevent the graining of weeds, the Moon decreasing.

Sow Carrot-seeds about the end of February or the beginning of March, the Moon increasing.

Sow Onions and Leeks in February or March, at the wane of the Moon.

Set Cucumbers and Melon seeds, not above one inch in depth, from the first of April to the 20 in the increase of the Moon.

A Table of the Rhombe and distance, &c. of some of the most famous Cities in the world from the Honourable City of London.

Excellent Notes of Husbandry and Gardening, for every Month in the Year

In January cut down Timber (and it shall not chink nor be eaten with worms) in the last quarter of the Moon (scor some Events, and Berries of Bay-trees, Myrtles, and Box: Wet Quicksilver, Rose-trees, Peaches, Filberts and Plum-trees; and remove trees if the frost be not too hard, prune and lop them before full Moon: Sow up for Beans and Pease, and dung land in the last quarter: Sow Carrot to eat, fallow land for Wheat and Barley: Crench Gardens with dung, and remove Bees, and for your own health, keep your body warm, let good and wholesome diet be your Physician, moderate exercise and labour your sauce to raise appetite

February: Sow some all sorts of Pease and Beans, and other Pulse, sow Mustard-seed, and up ditch-
Now sow all sorts of Pease and Beans, and other Pulse, sow Mustard-seed, and up ditch-
es, set and plant Vines, Crops, Gooseberries, and any fruit that grows upon bushes, prune and trim all sorts of fruit-trees from moss, snail, and all superfluous Branches. Graze in the latter end of the month, sow Onions in cold stiff land: Take heed of cold, forbear stegmatick meats.

March.

In the new of the Moon (the Wind any but West or South) graft Pear, Marpen, or Apple-trees, make an end of sowing all manner of Pulse, and begin to sow Oats, Barley, Barleyness, Onions, Carrots,

Wood-houle, 1680

Carrets, Cucumbers, Melons, and all kind of Pot-herbs, slip Betrichokes and Sage, geld Lambs, let blood according to Strength and necessity, the Sign and weather also being ke (but take advice of the learned Physician) but what disease cannot be cured in the Spring time by physick, will hardly be cured all the year after.

April.

Sow Barley, Peas, and Flax, pole Hops, set sand sow all kinde of Garden herbs, open Wives, and let Bees labour for their living, let Farmers now provide them for War, and all good Housewives look to their Dairies, bleed and purge with advice; those that are troubled with aches, or the gout, let them go to the Baths in this or either of the months.

May.

Sow Barly on all light lands and bearing grounds and likewise Peas and Flax, and all manner of fine seeds and herbs, take Lambs from their Dams, stir land for Wheat and Rye, leave lopping of Trees, reach Hops to climb, but cut off the superfluous branches, till early, walk the fields, especially by running streams, Sage and Sweet Butter is now an excellent breakfast, Sage and clarified Whey, as also Scurvy-grass, Hie, and Mallowwood Beer, are wholesome drinks to be drunk fasting.

June.

Sow Peas, bring home fuel, weed Corn and Gardens, set Rosemary, Carnations, and Silly-borders, sow Lettuce and Radish-seed three or four days after the full, for then they will not run to seed, make hay, carry Sand, Lime, Marl, and Manure, of what kind soever benefiting your land, cut neither hedge nor Tree in this and the two next months, beware of great thirst, use thin and light Diet, moderate exercise, and chaste thoughts.

July.

Apply making and getting in of hay, with hemp that is ripe, gather Garden Beans, get Mues and Mallowwood, and Saul to tread on your heels, to destroy Moths and Fleas. Hence your Copious moderate diet, take heed of great thirst, for nothing bringeth the Pestilence, or pestilent diseases sooner, then extreme thirst and fervent heats, and cold taken also suddenly upon them: Take no physick, bleed not but upon all violent occasions.

Labour in Summer, take pains with the Ant,

like in the Winter live poor, and in winter.

August.

Follow close your Corn-harvest, some tiller herbs in the nets of the Moon, gather Garden-seeds, make Havy and Pansy, gather Summer-fruits, refrain from sleeping in the day time after meat, avoid riot and excess.

September.

In the beginning of this month, and end of the former, gather Hops when they may be broken, the weather being fair, and no danger the ground will freeze, make Herjuice, some Wheat and Rye, remove and set all slips of flowers between the two Lady-days, put Wine to Wall, remove Trees every new Moon, from September until February, especially in the nets of the Moon, the weather fair and warm, the wind South or West: use Physick moderately, forbear fruits too pleasant, or rotten, shun riot, and excess of diet.

October.

Sow Wheat and Rye, the sooner the better, for fear of rain, set Beans and Butts, gather Winter fruits, the weather dry, in the afternoons and in the want of

the Moon. Cut Rose-trees, if you desire to have store of Roses, do this once in two years, refuse not any needful physick at the hands of the learned, and use all moderate sports to revive the vital spirits to the service of God only.

November.

M The Mault, kill Hogs, trench Gardens, dig dung, set Crab-tree Stocks, sow Wheat and Rye in exceeding hot sandy grounds, cut down Timber for Ploughs, Carts, and other implements for husbandry, use wholesome meat and drink, with good exercise to preserve health.

December.

Plow and the next month, cut down Timber in the last quarter of the Moon, uncover the roots of fruit-trees, set Beans and Pease, cover all your best sowers and herbs from frosts and storms, with old rotten horse-dung, wash well to your castles, water and keep night your sledges, let horses bled, and to conclude, drink good Wine and strong drink, keep thy house warm and dry, banish all cares from thy heart, and feast thy poor neighbours, rejoicing that God sent his only begotten Son about this time into the world, to save all such that lay hold on him with a true and lively faith.
